INSTRUCTION BOOKLET

**WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.**

**IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES**

## **WARNING - Seizures**

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions**  
**Altered vision**

**Eye or muscle twitching**  
**Involuntary movements**

**Loss of awareness**  
**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

## **WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

## **WARNING - Battery Leakage**

- Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

# GAME MODES

# CHAMPIONSHIP

The Championship mode is the main one-player game. While playing through a Championship season, you will be able to unlock new cars, better parts, and additional race tracks – all of which can be used in the other game modes!

## CLASS SELECT

When entering the Championship mode, you will need to determine the difficulty level by selecting a class to race in. Choose from Easy (Beginner's Class) to hard (Professional).

**Class**). The more difficult classes will not be selectable until you've completed the easier classes.

After selecting a class, you will enter the Garage. In addition to the standard information, the Garage in Championship mode also shows statistics on your car collection and the stages you've been able to complete.

**Car Collection** – Although you begin with 14 selectable cars, you will be able to unlock more cars for a total of 48 playable cars in GT Advance.

**Championship Racing!** The number you've unlocked is shown in the bottom/left corner of the Garage screen.

**Clear Stage** – Each completed stage will turn on a light next to the class it was completed in. If you came in first, a gold light will appear. Silver will be displayed for 2nd place, and bronze for 3rd place. Try to get the gold in every stage to unlock as many cars and parts as possible!

**Note:** For more information on the Garage options, see **PLAYING A GAME** on page 6.

## QUICK RACE

The quick race mode allows you to compete in one race at a time. Choose from any of the cars, upgrades and tracks already unlocked in the Championship mode before competing for first place!

## TIME ATTACK

Try to beat your best times on any of the available courses. Select a car and make adjustments to its tuning before selecting a course.

Hint: Sometimes a car with better handling will give you a faster lap time than a car with a higher top speed.

## PRACTICE

The Practice mode allows you to take any car onto a test drive course to learn how it accelerates and corners. There is no time limit and you can drive anywhere on the course to test the limits of your car.

VS

In order to play head-to-head against another player, you will each need a Game Boy® Advance system and a copy of GT Advance Championship Racing. Also, one Game Link® cable is needed to connect the two Game Boy Advance systems together. See the next page for VS Setup information.

## VS SETUP

The player that selects VS from the Main Menu will be in control and will be the only player able to select a course to race on. After selecting VS, each player will advance to the Garage. Select your cars and upgrades as you would for any other game mode, then press the A Button. When both players have completed making their selections in the Garage, they will continue to the Course Select screen. After the player in control selects a course, both players will head to the starting line to begin the race.

When a player is the first car over the finish line, the race will be over. You will automatically return to the Course Select screen. The player in control can choose another course to race on, or either player can press the B Button to return to the Garage and select another car.
